

## About Me

Hello, I am Lingyi. After my undergraduate study in Business analytics and Information, I worked as a data analyst for 3 years. I also worked as sales and marketing analyst to boarden my vision of business. For this goal, I explored myself in different industry, such as trading , healthcare, bank, education company. After several years' exploring, I realized how passionate i am to programming and obsess with the fact that technology bring huge efficiency to reality. Right now, I am chasing my dream. I am pursing my master degree in Computer Science. My favorite Courses: Python, Java, C Programming, Data Structure, Algorithm, Discrete Mathematics, Object Oriented Programming, Web Development

## My Skills

January 2022 - Present

### CS in Northeastern University

I am pursuing my master degree in Computer Science. The related Courses: Python, Java, C Programming, Data Structure, Algorithm, Discrete Mathematics, Object Oriented Programming, Web Development

September 2021- April 2022

### Work as Senior Data Analyst

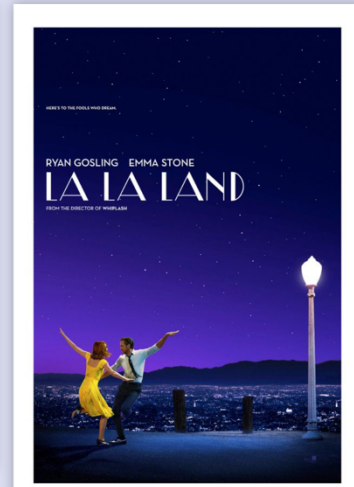

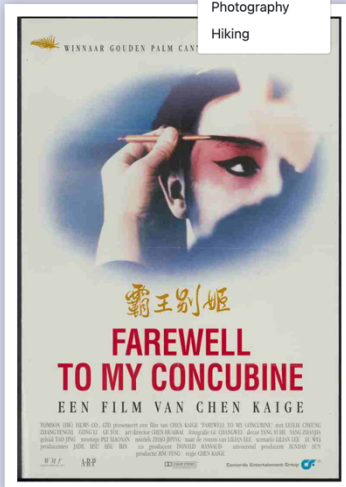

In this work, I realized the beauty of technology, because I noticed how efficient programming brings to Business industry. By using SQL and Python to manipulate data from manual to automate process, I help my team shorten entry time up to 70%.

June 2017- August 2019
